Library How-To:

Access Kanopy Videos from eCampus

Follow these steps to access Kanopy videos embedded in your eCampus class.

1. All Kanopy users (DCCCD students, faculty, and staff) must create an individual user account before viewing videos. If your instructor has embedded a Kanopy video, you should see this:

   ![Kanopy Sign-up Screen]

   If it is your first time viewing a Kanopy video, you will need to click on the “Sign up” button in order to sign up for a personal user account. **NOTE: you will not be able to log-in from this screen using your usual DCCCD username and password.**

2. When you click on the “Sign up” button, you will be directed to a new account sign-up form. You can sign up using any active email address that you are currently able to access.

   ![Kanopy Sign-up Form]
3. After you complete the sign-up form, Kanopy will send you an email requesting that you verify your email address. **NOTE:** You must verify your email address in order to begin using your personal Kanopy account. If you do not immediately see an email from Kanopy in your inbox, check your spam/clutter folder and refresh your inbox.

The email you receive from Kanopy will provide a link to verify your email address:

![Verify My Email](Verify My Email)

Once you have verified your email address, you will be free to enjoy Kanopy from anywhere using your personal account.

**If you need further assistance with Kanopy or with accessing any other library resources, please let us know!**
